DE NÆSTE CA. 100 MINUTTER...

Lektion 1: Introduktion til kurset

1. Introduktion

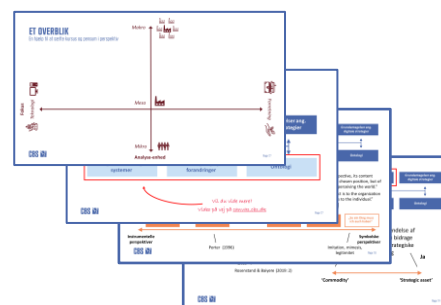

3. Læringsmål mv.

5. Lektioner, forventninger, eksamen

2. Hvad er en strategi?

4. Kurset i en nøddeskal

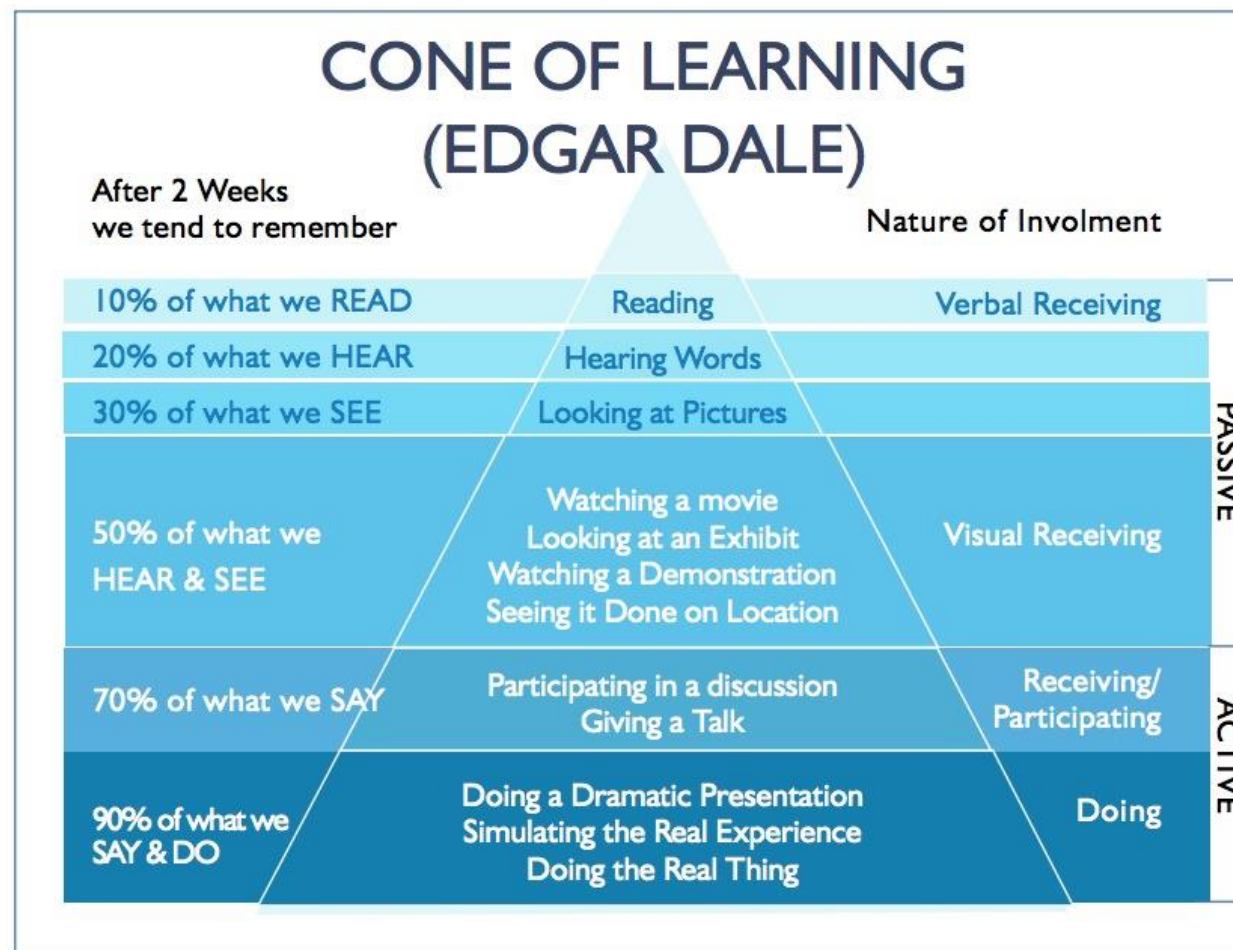

6. Afslutning

EFTER LEKTION 1 BØR I KUNNE...

- Forstå kursets formål, opbygning og pædagogik
- Redegøre for grundlæggende forståelser af strategi og IT-strategi
- (Input til at) reflektere over kursets seks gennemgående temaer og emnerne for hver enkelt lektion
- Reflektere over egen tilgang til opfyldelse af kursets krav og læringsmål

STRATEGI HVA'-FOR-NOGET?

- *Græsk oprindelse*: "Stratos" (hær) + "Agein" (at lede)
- *Den Danske Ordbog*: "Overordnet, langsigtet planlægning der især tager hensyn til endemålet"
- *Oxford English Dictionary (4A)*: "The art or practice of planning or directing the larger movements or long-term objectives of a battle, military campaign, etc. Often distinguished from tactics, considered as the art of directing forces engaged in action or in the immediate presence of the enemy."
- *Oxford English Dictionary (4B)*: "The art or practice of planning the future direction or outcome of something; the formulation or implementation of a plan, scheme, or course of action, esp. of a long-term or ambitious nature. Also: policy or means of achieving objectives within a specified field, as political strategy, corporate strategy, etc."

MODERNE (MIS)FORSTÅELSER

- Moderne forståelser anskuer ofte strategi som implicit problemløsning baseret på tre elementer (Rumelt, 2011):
 1. "A diagnosis that defines or explains the nature of the challenge".
 2. "A guiding policy for dealing with the challenge".
 3. "Coherent actions designed to carry out the guiding policy".

MODERNE (MIS)FORSTÅELSER

“The Jack Welch quote about “reaching for what appears to be the impossible” is fairly standard motivational fare, available from literally hundreds of motivational speakers, books, calendars, memo pads, and Web sites. This fascination with positive thinking has helped inspire ideas about charismatic leadership and the power of a shared vision, reducing them to something of a formula. The general outline goes like this: the transformational leader (1) develops or has a vision, (2) inspires people to sacrifice (change) for the good of the organization, and (3) empowers people to accomplish the vision.”

(Rumelt, 2011: 8)

The perils of bad strategy

Richard Rumelt

Bad strategy abounds, says UCLA management professor Richard Rumelt. Senior executives who can spot it stand a much better chance of creating good strategies.

Horatio Nelson had a problem. The British admiral's fleet was outnumbered at Trafalgar by an armada of French and Spanish ships that Napoleon had ordered to disrupt Britain's commerce and prepare for a cross-channel invasion. The prevailing tactics in 1805 were for the two opposing fleets to stay in line, firing broadsides at each other. But Nelson had a strategic insight into how to deal with being outnumbered. He broke the British fleet into two columns and drove them at the Franco-Spanish fleet, hitting its line perpendicularly. The lead British ships took a great risk, but Nelson judged that the less-trained Franco-Spanish gunners would not be able to compensate for the heavy swell that day and that the enemy fleet, with its coherence lost, would be no match for the more experienced British captains and gunners in the ensuing melee. He was proved right: the French and Spanish lost 22 ships, two-thirds of their fleet. The British lost none.¹

Nelson's victory is a classic example of good strategy, which almost always looks this simple and obvious in retrospect. It does not pop out of some strategic-management tool, matrix, triangle, or fill-in-the-blanks scheme. Instead, a talented leader has identified the one or two critical issues in a situation—the pivot points that can multiply the effectiveness of effort—and then focused and concentrated action and resources on them. A good strategy does more than urge us forward

¹ Nelson himself was mortally wounded at Trafalgar, becoming, in death, Britain's greatest naval hero. The battle ensured Britain's naval dominance, which remained secure for a century and a half.

USA'S TILGANG TIL CUBA-KRISEN I 1963

10

“This Government, as promised, has maintained the closest surveillance of the Soviet military buildup on the island of Cuba. Within the past week, unmistakable evidence has established the fact that a series of offensive missile sites are now in preparation on that imprisoned island. The purpose of these bases can be none other than to provide a nuclear

strike capability against the Western Hemisphere. Our unswerving objective, therefore, must be to prevent the use of these missiles against this or any other country, and to secure their withdrawal or elimination from the Western Hemisphere. First: To halt this offensive buildup a strict quarantine on all offensive military equipment under shipment to Cuba is being initiated. All ships of any kind bound for Cuba from whatever nation or port will, if found to contain cargoes of offensive weapons, be turned back. Second: I have directed the continued and increased close surveillance of Cuba and its military buildup. The foreign ministers of the OAS [Organization of American States], in their communiqué' of October 6, rejected secrecy on such matters in this hemisphere.”

Præsident Kennedys tale (uddrag), 22. okt. 1963

KOMMERCIELLE STRATEGIER

Porter (1996): What Is Strategy?

- “Operational effectiveness (OE) means performing similar activities better than rivals perform them.”
- “OE competition shifts the productivity frontier outward, effectively raising the bar for everyone. But although such competition produces absolute improvement in operational effectiveness, it leads to relative improvement for no one.”
- “In contrast, **strategic** positioning means performing *different* activities from rivals' or performing similar activities in *different ways*.”
- “Competitive strategy is about being different. It means deliberately choosing a different set of activities to deliver a unique mix of value.”
- Strategic positions emerge from three distinct but overlapping sources:
 1. Variety-based positioning
 2. Needs-based positioning
 3. Access-based positioning

FORVENTNINGER: HVAD HÅBER I AT LÆRE?

LÆRINGSMÅL

Weber & Poulsens
Bogbinderi

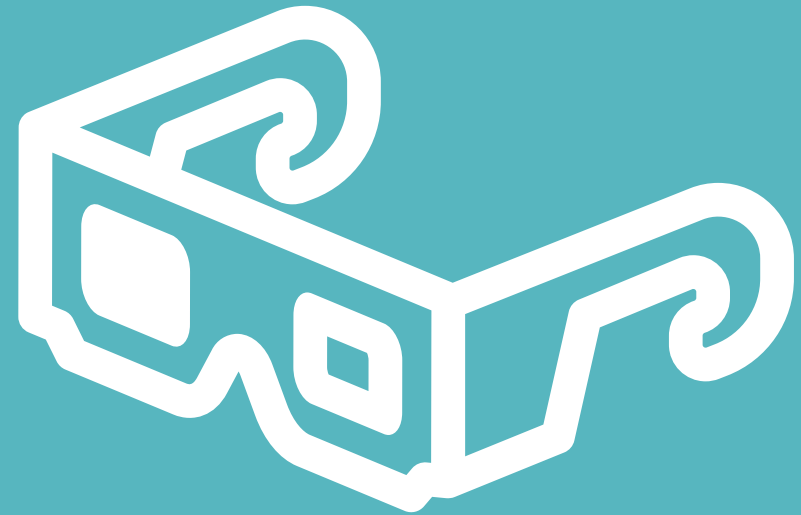

Flügger

- Redegøre for grundlæggende IT-strategiske modeller og begreber
- Beskrive og forklare relevante IT-strategier, der kan udnyttes i forskellige organisatoriske sammenhænge
 - Identificere og reflektere over relevante koncepter/modeller til at analysere udfordringer og muligheder for IT i en given organisation
- Anvende kursets centrale begreber og modeller meningsfuldt og reflekteret på cases og konkrete eksempler.

...OG HVAD KAN VI SÅ BRUGE DET TIL?

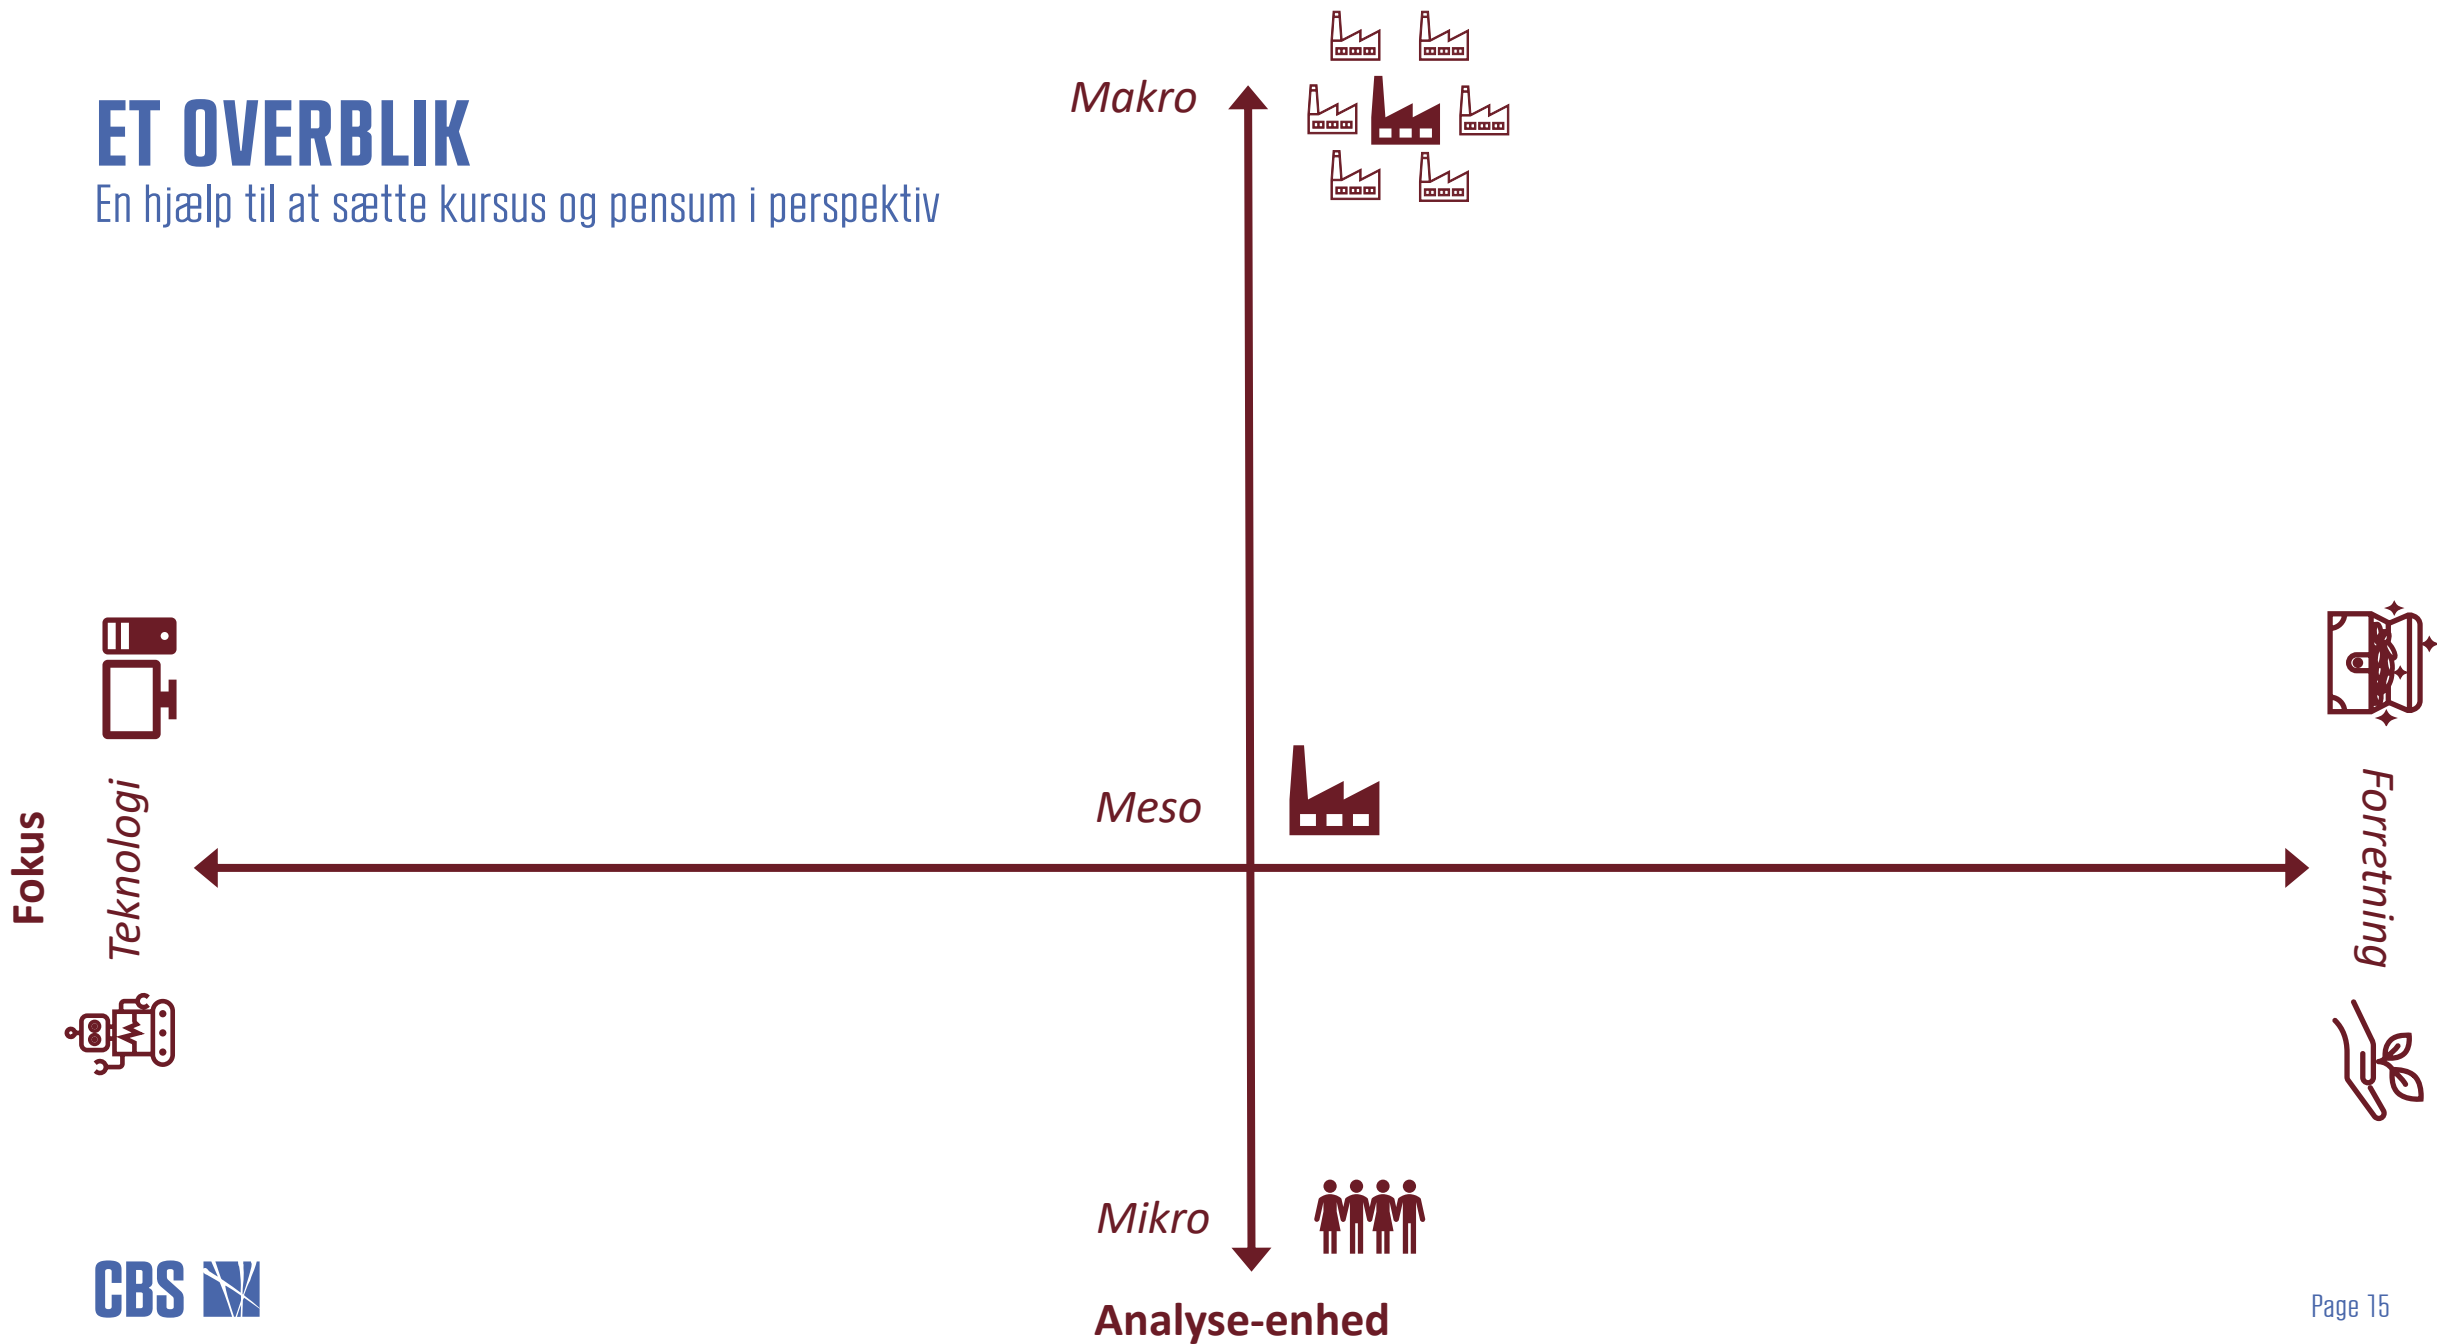

- Teoretisk ramme og baggrund for bachelor- og kandidatuddannelserne
- Kontekst for andre kurser
- Teoretisk fundament for bacheloropgave mv.
- Kompetencer til arbejdslivet:
 - Foretage strategiske analyse
 - Formulere en strategi
 - Udmønte en strategi
 - Aflæse konkurrenters strategi(er)

Et særligt perspektiv på menneskers og organisationers handlinger

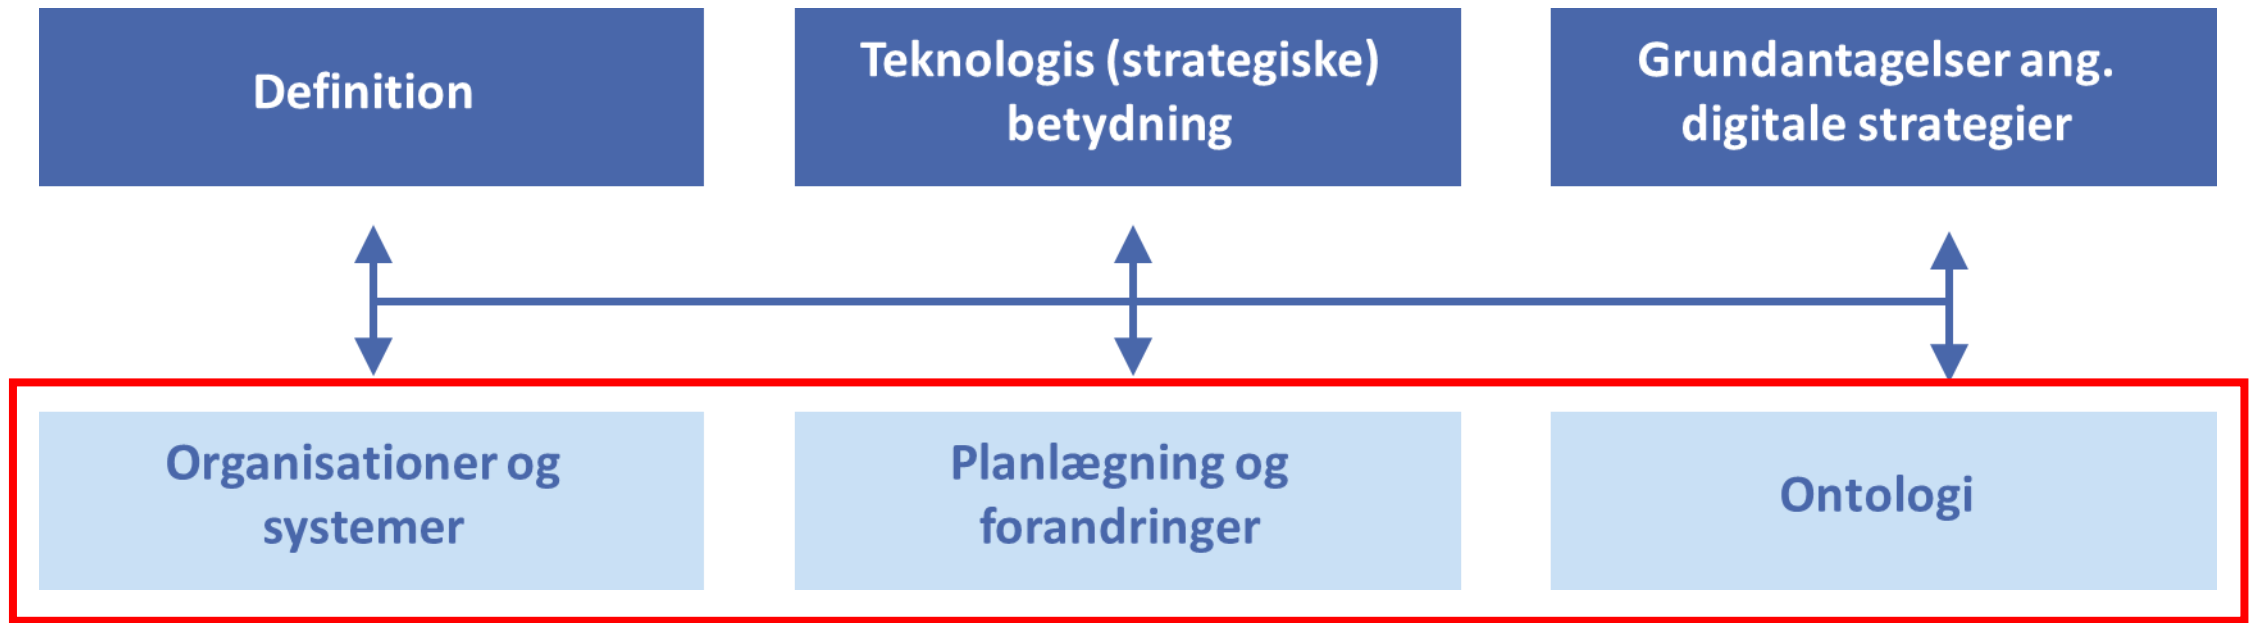

ET OVERBLIK

HVAD ER EN STRATEGI?

Mintzberg (1987): The Strategy Concept

“a strategy can be a ploy [...] – a specific ‘maneuver’ intended to outwit an opponent or competitor.”

“the real strategy (as plan, that is, the real intention) is the threat, not the expansion itself, and as such is a ploy.”

Rumelt (2011)

A ploy

A plan

A position

“Strategy is a pattern specifically, a pattern in a stream of actions.”

“In other words, by this definition, strategy is consistency in behavior, whether or not intended.”

A pattern

A perspective

“strategy is a perspective, its content consisting not just of a chosen position, but of an ingrained way of perceiving the world.”
“Strategy in this respect is to the organization what personality is to the individual.”

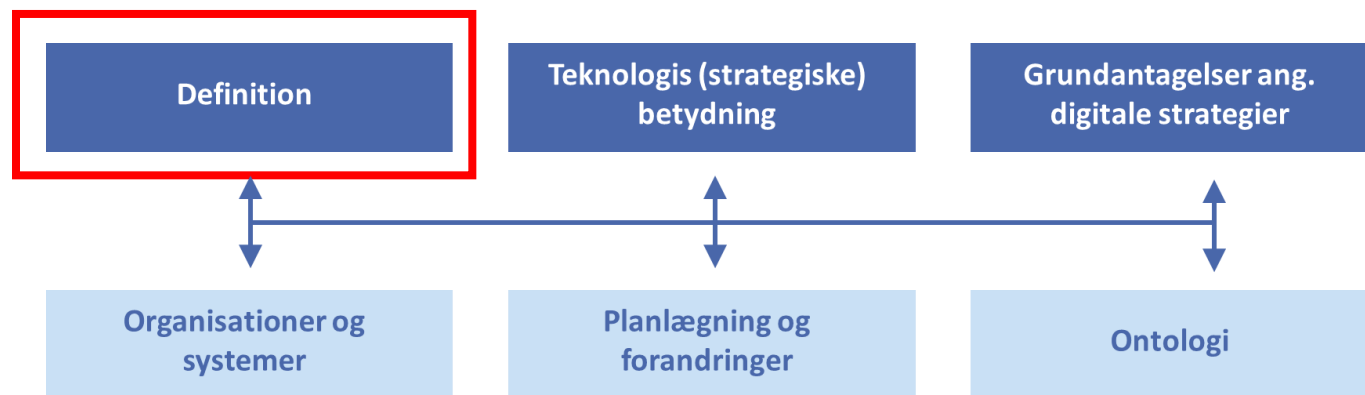

„So ein Ding muss ich auch haben“

ER DIGITAL TEKNOLOGI NOGET SÆRLIGT?

Digital teknologi

“...technology that is used in handling (converting, processing, transmitting, storing, manipulating etc.) digital ‘bits’”.

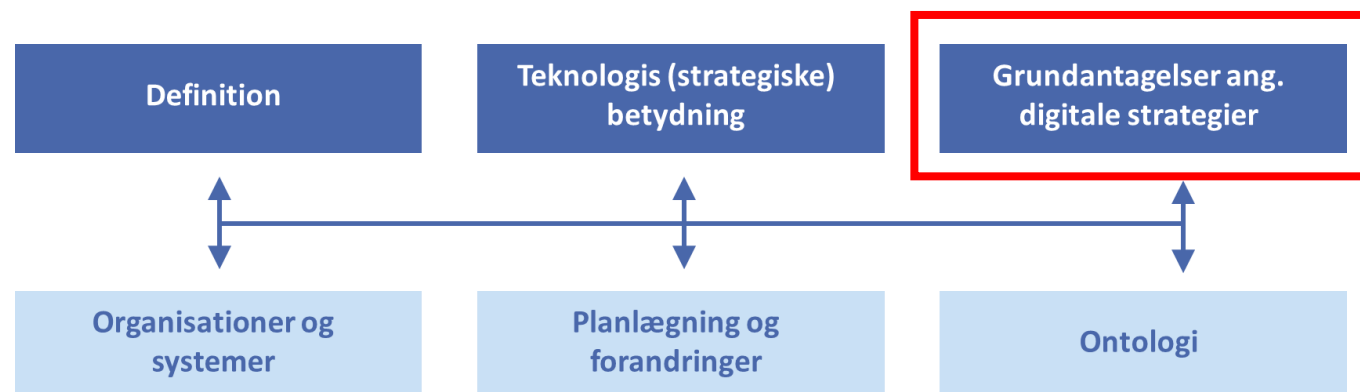

Rosenstand & Baiyere (2019: 2)

En virksomheds anvendelse af digital teknologi kan bidrage afgørende til dens strategiske positionering

HVILKE GRUNDANTAGELSER KENDETEGNER DIGITALE STRATEGIER?

Chen et al. (2010): Information Systems Strategy

‘Grundantagelser’

“...It is important to note that a conception of [...] strategy is not necessarily synonymous to a definition. While a definition specifies the content and scope of the construct, a conception reflects the set of underlying assumptions that an author has inherited (mostly implicitly) about a construct.

Chen et al. (2010: 238)

“...the leverage of digitization in order to open up new possibilities or attain specific goals by drawing upon the affordance of the digital in conjunction with the sociotechnical properties of the context.”

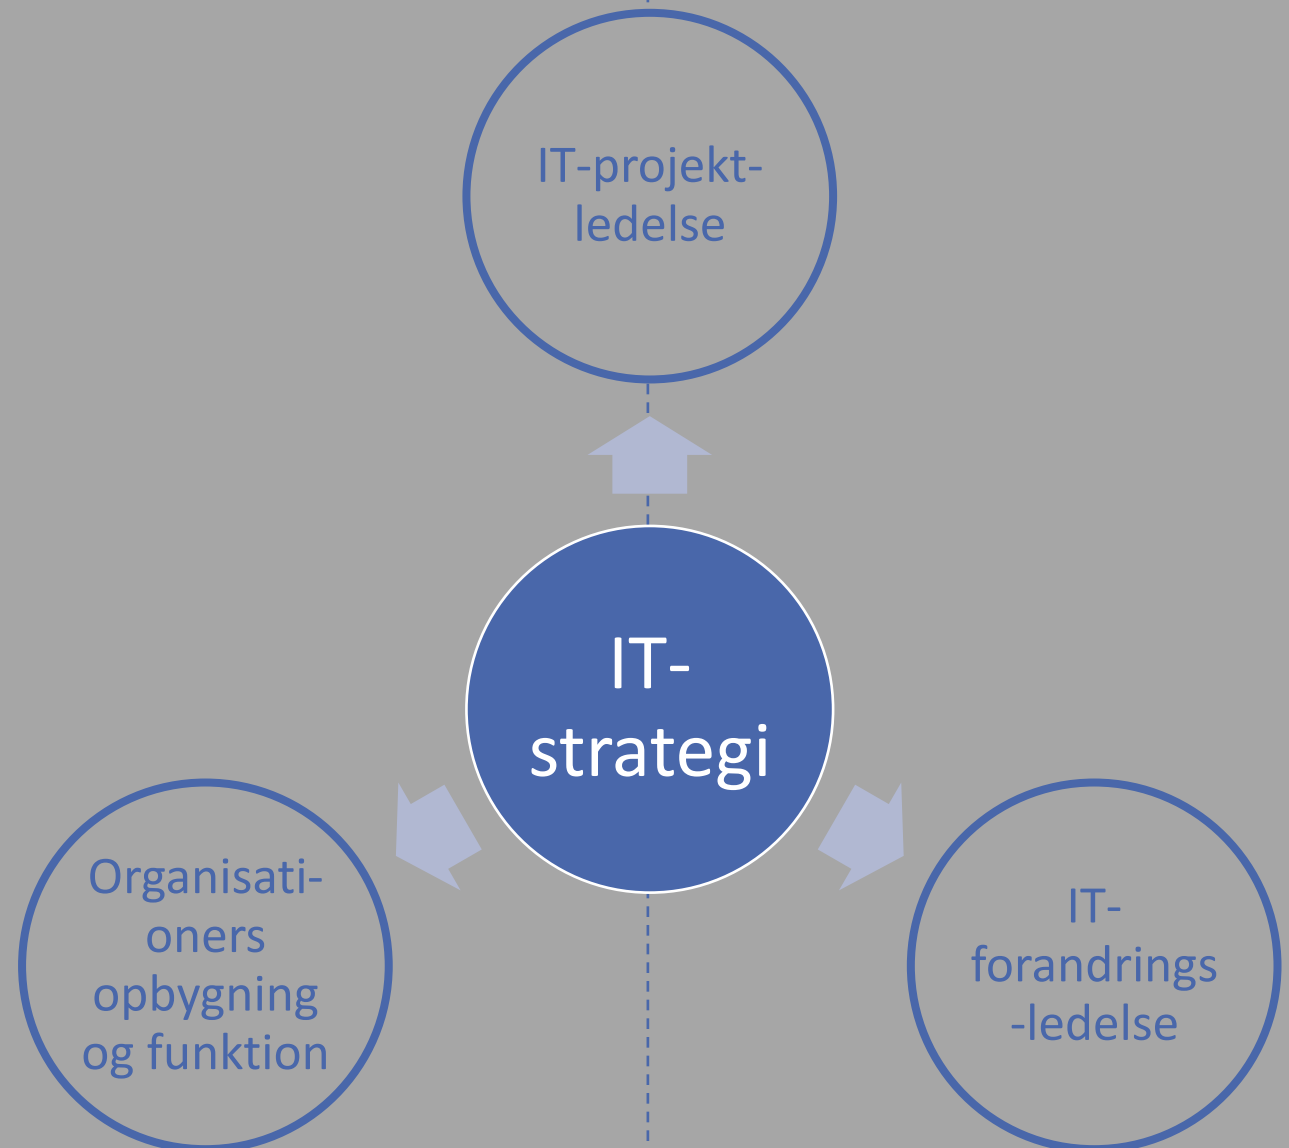

Rosenstand & Baiyere (2019: 4)

KURSET I SAMMENHÆNG

Øvrige kurser i organisationsfagblokken

”De **organisatoriske fag** beskæftiger sig med virksomheders **organisering og ledelse**. Det menneskelige aspekt er afgørende for, at de forretningsmuligheder, som it kan tilbyde, bliver til virkelighed. Medarbejdere kan være med til at fremme, at it bliver anvendt og udviklet i en organisation, men det kræver at deres behov, udgangspunkt og kompetencer er indtænkt i løsningen.”

LEKTIONER

Lektion	Underviser	Øvelse
1. Introduktion til kurset	Ulrik R & Sebastian W	Nej
2. Strategisk analyse (del I) og typiske strategiske virkemidler	Sebastian W	Ja
3. Strategisk analyse (del II) og digitale forretningsmodeller	Ulrik R	Ja
4. Strategi og digital transformation	Ulrik R	Ja
5. Digital innovation, disruption og strategier	Sebastian W	Ja
6. Digitale økosystemer	Sebastian W	Ja
7. Implementering af strategier	Ulrik R	Ja
8. 'Case competition'	Ulrik R m.fl.	Ja
9. Opsummering og eksamensforberedelse	Ulrik R & Sebastian W	Nej

'CASE COMPETITION'

- (IT-)strategisk svar på real-life case.
- Grupper af 2-4 deltagere.
- Ca. 1 uges forberedelse (uge 15-16).
- Præsentation for eksternt dommerpanel (Netcompany, Boston Consulting m.fl.)
- 1-2 runder (afhængig af antal deltagere).
- Præmier til vindere.
- Mulighed for real-life feedback, eksamensforberedelse, fællesskab og præsentations-træning.
- Deltagelse er integreret del af kurset.

**Tilmelding 31. marts
2026**

Tilmelding til Ulrik på ubur.digi@cbs.dk

ERFARINGER

Sebastian Olesen, Alexander Christiansen,
Laurits Thomsen & Emil Rodin (deltagere i 2025)

"Case Competition var en god mulighed for at prøve kræfter med fagets pensum, gruppefremlæggelse og hvordan teorier kan bruges i praksis. Det var også meget spændende at besøge Boston Consulting og høre om, hvordan de arbejder med implementering af IT-strategier i den virkelige verden."

"Case Competition var en god generalprøve til hvordan ITS-eksamenen fungerer, hvordan man samarbejder med at løse opgaver og hvordan man fremlægger effektivt. Det kan klart anbefales!"

"Ved at læse op på fagets pensum under case competition, blev eksamens læsningen nemmere at overskue."

"Det er spændende at se hvordan teorier og virkeligheden både kan passe sammen, men også stride mod hinanden. Det fremmer ens strategiske forståelse og hjælper med at forstå den verden, som virksomheder agerer i."

FORVENTNINGER (1)

Arbejdsbyrde

- Forelæsninger: 22 timer
- Forberedelse til forelæsninger: 66 timer
- Øvelser: 22 timer
- Forberedelse til øvelser: 58 timer
- Eksamensforberedelse: 38 timer

Forberedelse

Lektioner

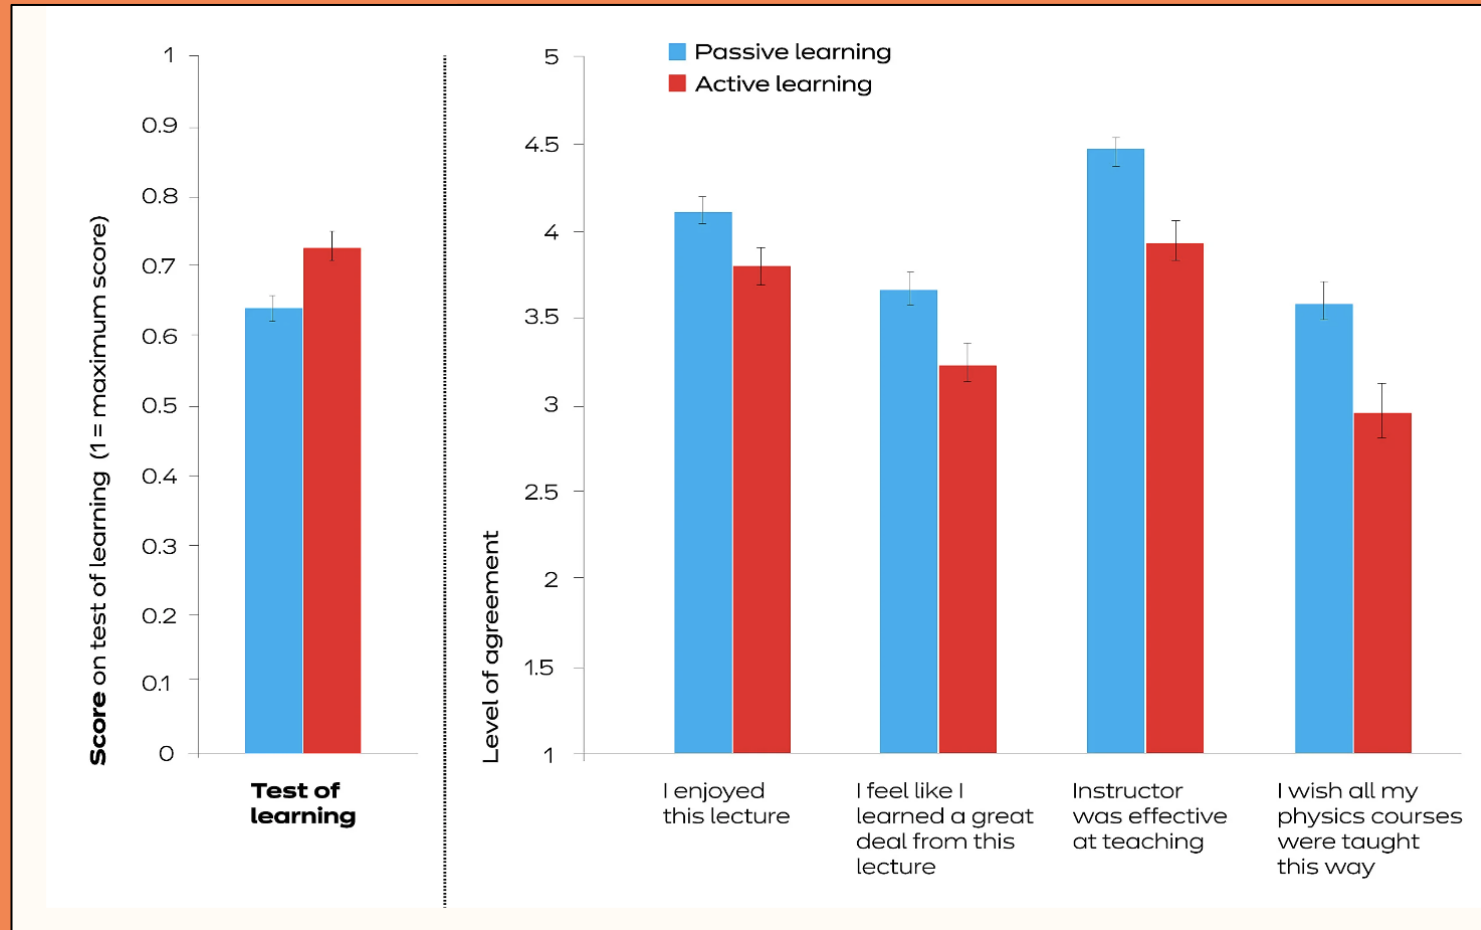

Øvelser

Refleksion

FORVENTNINGER (2)

PENSUM

- Pensum er omfangsrigt – og her og der krævende.
 - Forståelse kræver både individuel refleksion og fælles diskussion.
- Består af kapitler, forsknings-artikler og fag-artikler.
- Opdelt i obligatorisk (canvas.cbs.dk) og hvis-du-vil-vide-mere (www.cbs.dk/bibliotek).
- Eventuelle case-beskrivelser mv. forud for øvelser offentliggøres senest ifm. forelæsning.
- Hold øje med eventuelle ændringer på canvas.cbs.dk.

FORSKNINGS-ARTIKLER

- Artikler er skrevet til fagfæller – ikke til introduktion og overblik
- Kan være vanskelige og tidskrævende
- Derfor:
 - *Overvej formål med at læse artiklen:* Forberedelse til lektion, anvende i semester-projekt osv.
 - *Læs målrettet:* Ofte er det ikke hele artiklen, der er lige relevant
 - *Understøt din læsning:* Notér det mest relevante
 - Eksempel: Rosenstand & Baiyere (2019)

Review

Does multitasking with mobile phones affect learning? A review

Quan Chen*, Zheng Yan

University at Albany, State University of New York, USA

ABSTRACT

Mobile phone multitasking is widely considered to be a major source of distraction in academic performance. This paper attempts to review the emerging literature by focusing on three questions concerning the influence of mobile phone multitasking on academic performance: (a) How does mobile phone multitasking impair learning? (b) Why does mobile phone use impair learning? (c) How to prevent from mobile phone distraction? We use multiple strategies to locate the existing research literature and identified 132 studies published during 1999–2014. The mobile phone multitasking and distractibility are reviewed in three major aspects: distraction sources (ring of mobile phone, texting, and social application), distraction targets (reading and attending), and distraction subjects (personality, gender, and culture). We also compare the results of these studies with the findings on mobile phone multitasking and driving, the earliest area of mobile phone multitasking research. Both limitations of existing research and future research directions are discussed.

Contents

1. Introduction	35
2. Method	36
3. How does mobile phone multitasking impair learning?	36
3.1. Distraction sources	36
3.1.1. Ring of mobile phone	36
3.1.2. Texting	36
3.1.3. Information communication technology (ICT)	37
3.2. Distraction target	37
3.2.1. Reading	37
3.2.2. Attention	38
3.3. Distraction subject	38
3.3.1. Personality	38
3.3.2. Gender	38
3.3.3. Culture	38
3.3.4. Information motives	39
4. Why does mobile phone multitasking impair learning?	39
4.1. Cognitive theory of multimedia learning approach	39
4.2. Continuous partial attention approach	39
4.3. Unified theory of the multitasking continuum approach	39
4.4. Inattention blindness and attentional blink approach	40
5. How to best prevent from mobile phone distractibility?	40
5.1. Raise public awareness	40
5.2. Practice dual-task skills	40
5.3. Develop effective policy	41

- **Fem obligatoriske opgaver**

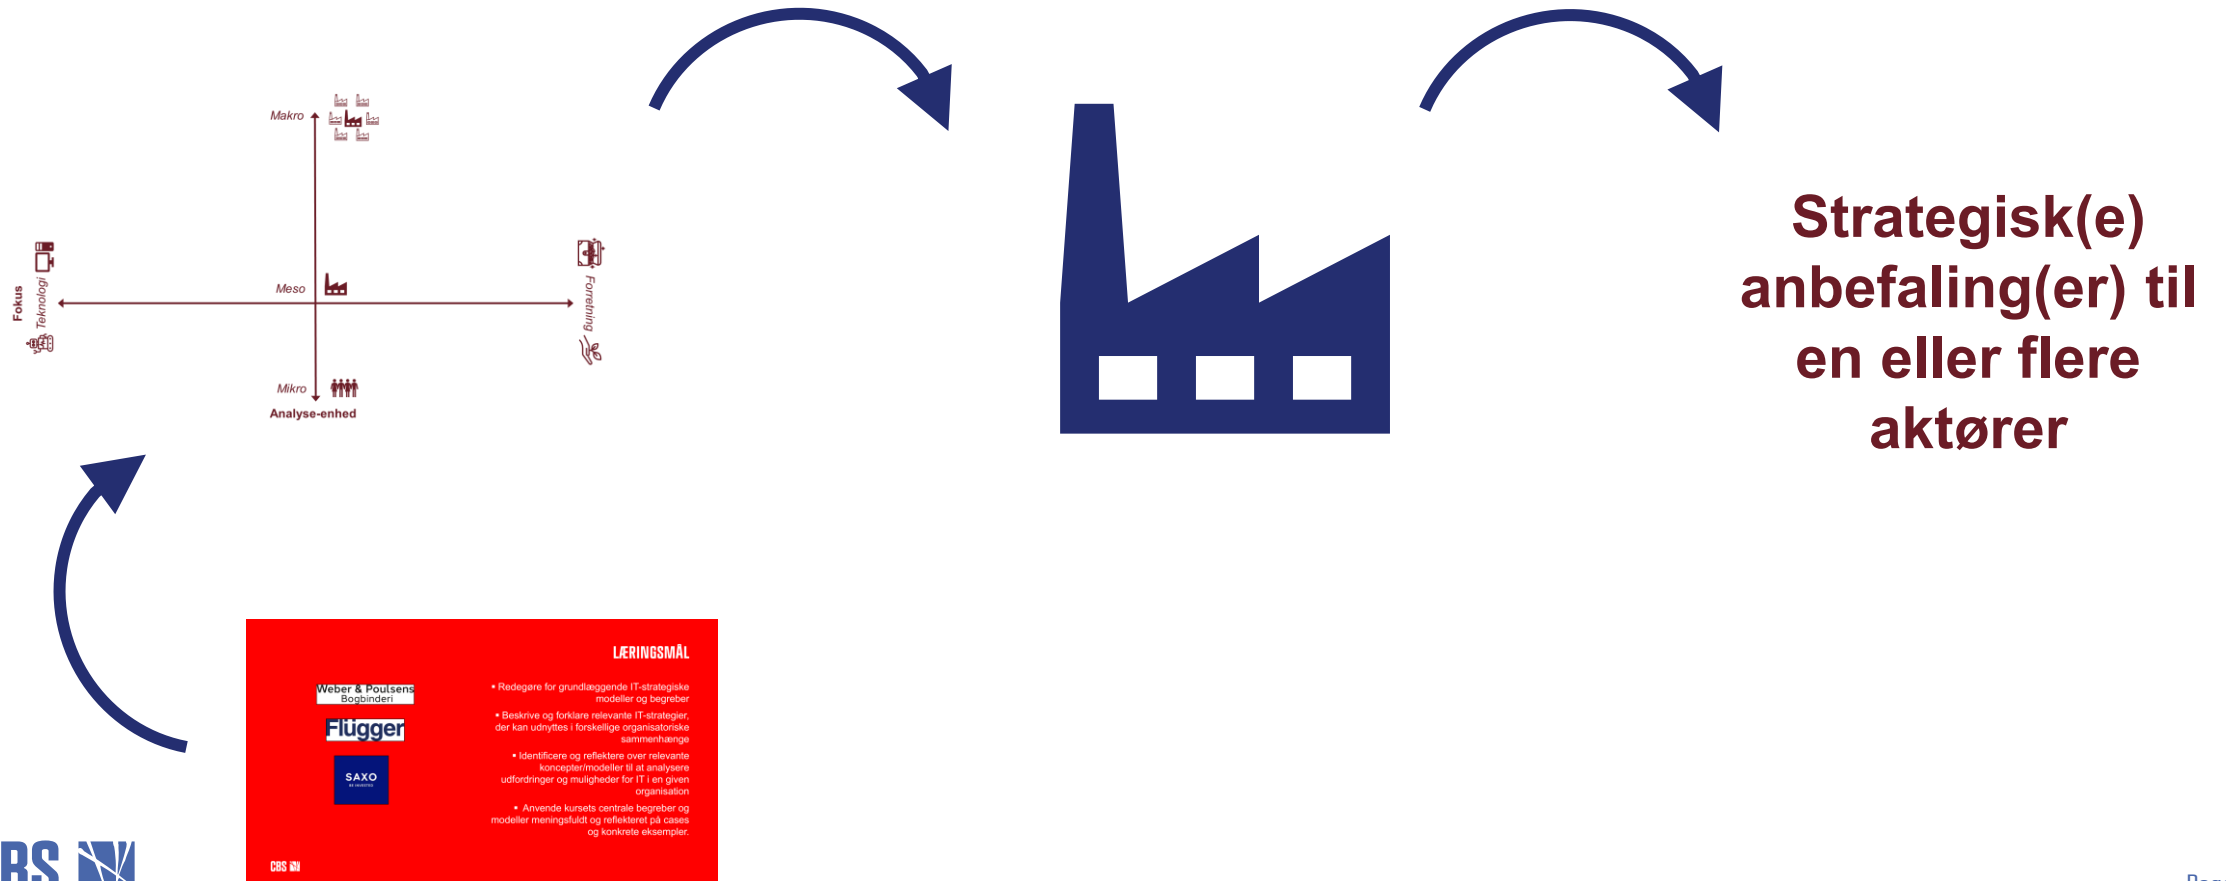

- To mini-cases (gruppe) og 3 multiple choice-quizzes (individuel)
- Anvend quizzes som indikation på egen indsats – anvend cases som forberedelse til eksamen
- Tre opgaver er forudsætning for eksamen.

- **Eksamen**

- Mundtlig prøve i grupper på baggrund af skriftlig opgave.
- Opgave baseres på strategisk analyse af case med henblik på formulering af anbefalinger (maks. 15 sider)
- Individuel helhedsbedømmelse på baggrund af opgave og mundtlig præstation
- Skriftlig opgave forventes frigivet 24. april og skal forventeligt afleveres 15. maj. Eksamen forventes afholdt fra 15. –26. juni.
- Formalia i [kursuskataloget](https://www.rts.dk/kursuskataloget).

DEN RØDE TRÅD

Fra læringsmål via undervisning og øvelser til eksamen

ETABLERING AF GRUPPER

- Øvelser og eksamen gennemføres i grupper.
 - Grupper består af 2-4 personer
 - Mest hensigtsmæssigt 4 personer.
- Mangler I en gruppe skal I senest 17. feb. 2026 skrive til Laurits Thomsen (laj.digi@cbs.dk).
- Grupperne fordeles på øvelsesholdene (XA og XB) på den første øvelse.
 - PS: 'Shopping' mellem øvelseshold er ikke velkomment 😞.

OPSAMLING

- Vær realistisk : Kurset er ikke 'a walk in the park'.

TAK FOR I DAG 😊

- FORBERÉD
- DELTAG
- FEJL'
- REFLEKTÉR
- FEEDBACK

Husk det!
